

TECHNICAL DATA	MT1000SWD

Speed

Temperature rise

Degree of protection

Exhaust gas silencer Built-in fuel tank 120 l

First filling oil

Lifting devices

Rating according ISO 8528 Prime Power (PRP)

**STANDARD EQUIPMENT** 

Starting motor and alternator battery charger

Skidbase with antivibrating shock-absorbers Lead type batteries with cables and tray

It is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year under the agreed operating

conditions with the maintenance intervals and procedures being carried out as prescribed by the manufacturer. The permissible average power output over

24 h of operation shall not exceed 70% of the prime power. A 10% overload capacity is available for a period of 1 hour within a 12-hour period of operation.

4-pole circuit breaker in fixed configuration, manual control

Dry air filter with removable element Radiator mounted on skidbase Water preheating system

Protection for fan and moving parts

Insulation class

GENSET SPECIFICATIONS		
Prime Power (PRP)	1000 kVA 800 kW	
Stand-by (LTP)	1100 kVA 880 kW	
Power factor (cosphi)	0,8	
Voltage	400/230 V	
Frequency	50 Hz	
ENGINE SPECIFICATIONS		
Brand	MTU	
Туре	16V 2000 G26F	
Net engine power prime	850 kW	
Net engine power stand-by	939 kW	
Aspiration	TCA	
Cycle	diesel 4 stroke	
Cooling	water	
Speed	1500 r.p.m.	
Cylinders	16 V	
Bore x stroke	135 x 156 mm	
Displacement	35,700	
Fuel consumption 75% prime power	147 l/h +/- 5%	
Oil consumption	0,35% of fuel consumption	
Oil sump capacity	114	
Coolant system capacity (engine & radiator)	70	
Standard voltage	24 V	
Governor type	electronic	
ALTERNATOR SPECIFICATIONS		
Power (PRP)	1000 kVA	
Overload	10% for 1 hour	
Voltage	400/230 V	
Frequency	50 Hz	

1500 r.p.m.

## WT1000SWD\_50\_TECH\_DATA\_REV.1\_eng

conditions, for which the generating set is capable of delivering for up to 500 h of operation per year (of which no more than 300 for continuative use) with the maintenance intervals and procedures being carried out as prescribed by the manufacturers. No overload capability is available.

Ausonia S.r.l. - Via Favara 452/I, 91025 Marsala (TP), Italia - T +39 0923 722311 - F +39 0923 721274 - ausonia@ausonia.net - www.ausonia.net

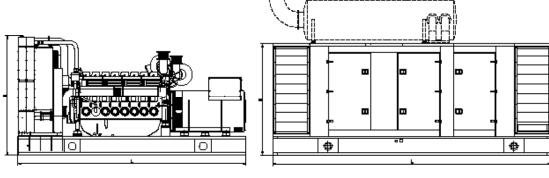

Dry: kg 7600

Dry: kg 10400

## **MT1000SWD** TECHNICAL DATA **CONTROL PANEL** Genset control with automatic management of load transfer DG/Mains Controller with thresholds, counters, alarm, status LCD display with pushbutton access for monitoring electrical and mechanical parameters Advanced programmable I/O functions Multilanguages text for measurements setting and messages Remote communication interface List of events Static battery charger SOUNDPROOFED CANOPY Highly corrosionproof Electrogalvanized steel structure with modular components Antianimal protection grid (air intake) Exhaust silencer with rain flap Insulation with material in fire reaction class A1 Doors with yale type key Emergency stop Easy connections for cables installation **AVAILABLE OPTIONS** Different soundproofing levels for canopied gensets Solutions for arctic or hot environment A wide selection of genset controllers and synch panels Additional alarms (warning / shutdown) Extended fuel tank capacity Automatic refuelling kit Automatic transfer switch panel (ATS) Residential Silencer (for open set only) Leak proof tray Special tools **DIMENSIONS AND WEIGHTS** Open set on skid base LxWxH: mm 4500x1580x2320 LxWxH: mm 7000x2400x2700 Soundproofed canopy Silent version (\*) (\*) Dimensions don't include residential exhaust muffler because this item is supplied loose to be mounted on the canopy roof
