Prime Power (PRP)

It is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year under the agreed operating conditions with the maintenance intervals and procedures being carried out as prescribed by the manufacturer. The permissible average power output over 24 h of operation shall not exceed 70% of the prime power. A 10% overload capacity is available for a period of 1 hour within a 12-hour period of operation.

Limited-Time Running Power (LTP)

It is defined as the maximum power available, under the agreed operating conditions, for which the generating set is capable of delivering for up to 500 h of operation per year (of which no more than 300 for continuative use) with the maintenance intervals and procedures being carried out as prescribed by the manufacturers. No overload capability is available.

CONTROL PANEL

Genset control with automatic management of load transfer DG/Mains

Controller with thresholds, counters, alarm, status

LCD display with pushbutton access for monitoring electrical and mechanical parameters

Advanced programmable I/O functions

Multilanguages text for measurements setting and messages

Remote communication interface

List of events

Static battery charger

SOUNDPROOFED CANOPY

Highly corrosionproof

Electrogalvanized steel structure with modular components

Antianimal protection grid (air intake)

Exhaust silencer with rain flap

Insulation with material in fire reaction class A1

Doors with yale type key

Emergency stop

Easy connections for cables installation

AVAILABLE OPTIONS

Different soundproofing levels for canopied gensets

Solutions for arctic or hot environment

A wide selection of genset controllers and synch panels

Additional alarms (warning / shutdown)

Extended fuel tank capacity

Automatic refuelling kit

Automatic transfer switch panel (ATS)

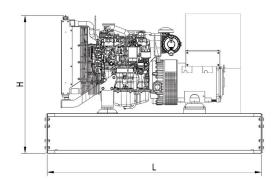

Residential Silencer (for open set only)

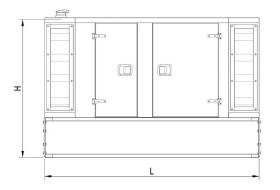

Leak proof tray

Special tools

DIMENSIONS AND WEIGHTS

Open set on skid base	LxWxH: mm 2150x1270x1270	Dry: kg 635
Soundproofed canopy Silent version	LxWxH: mm 2150x1270x1400	Dry: kg 935
