GENSET SPECIFICATIONS		
Prime Power (PRP)	15 kVA	12 kW
Stand-by (LTP)	16 kVA	12,8 kW
Power factor (cosphi)	0,8	
Voltage	400/230 V	
Frequency	50 Hz	
ENGINE SPECIFICATIONS		
Brand	PERKINS	
Туре	403A-15G2	
Net engine power prime	13,84 kW	
Net engine power stand-by	15,24 kW	
Aspiration	NA	
Cycle	diesel 4 stroke	
Cooling	water	
Speed	1500 r.p.m.	
Cylinders	3 L	
Bore x stroke	84 x 90 mm	
Displacement	1,496 l	
Fuel consumption 75% prime power	3 l/h +/- 5%	
Oil consumption	0,15% of fuel consumption	
Oil sump capacity	6 l	
Coolant system capacity (engine & radiator)	61	
Standard voltage	12 V	
Governor type	mechanical	
Governor type	moonamoa	
ALTERNATOR SPECIFICATIONS	moonamoar	
ALTERNATOR SPECIFICATIONS Power (PRP)	15 kVA	
ALTERNATOR SPECIFICATIONS	15 kVA 10% for 1 hour	
ALTERNATOR SPECIFICATIONS Power (PRP)	15 kVA	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency	15 kVA 10% for 1 hour 400/230 V 50 Hz	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m.	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection STANDARD EQUIPMENT	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system Protection for fan and moving parts	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system Protection for fan and moving parts Exhaust gas silencer	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system Protection for fan and moving parts Exhaust gas silencer Built-in fuel tank 120 l	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system Protection for fan and moving parts Exhaust gas silencer Built-in fuel tank 120 l First filling oil	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system Protection for fan and moving parts Exhaust gas silencer Built-in fuel tank 120 I First filling oil Skidbase with antivibrating shock-absorbers	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system Protection for fan and moving parts Exhaust gas silencer Built-in fuel tank 120 I First filling oil Skidbase with antivibrating shock-absorbers Lead type batteries with cables and tray	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H	
ALTERNATOR SPECIFICATIONS Power (PRP) Overload Voltage Frequency Speed Temperature rise Insulation class Degree of protection  STANDARD EQUIPMENT Starting motor and alternator battery charger Dry air filter with removable element Radiator mounted on skidbase Water preheating system Protection for fan and moving parts Exhaust gas silencer Built-in fuel tank 120 I First filling oil Skidbase with antivibrating shock-absorbers	15 kVA 10% for 1 hour 400/230 V 50 Hz 1500 r.p.m. H IP 23	

#### Rating according ISO 8528

## Prime Power (PRP)

It is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year under the agreed operating conditions with the maintenance intervals and procedures being carried out as prescribed by the manufacturer. The permissible average power output over 24 h of operation shall not exceed 70% of the prime power. A 10% overload capacity is available for a period of 1 hour within a 12-hour period of operation.

#### Limited-Time Running Power (LTP)

It is defined as the maximum power available, under the agreed operating conditions, for which the generating set is capable of delivering for up to 500 h of operation per year (of which no more than 300 for continuative use) with the maintenance intervals and procedures being carried out as prescribed by the manufacturers. No overload capability is available.

TECHNICAL DATA

# **PE0015SWD**

### **CONTROL PANEL**

Genset control with automatic management of load transfer DG/Mains

Controller with thresholds, counters, alarm, status

LCD display with pushbutton access for monitoring electrical and mechanical parameters

Advanced programmable I/O functions

Multilanguages text for measurements setting and messages

Remote communication interface

List of events

Static battery charger

### **SOUNDPROOFED CANOPY**

Highly corrosionproof

Electrogalvanized steel structure with modular components

Antianimal protection grid (air intake)

Exhaust silencer with rain flap

Insulation with material in fire reaction class A1

Doors with yale type key

Emergency stop

Easy connections for cables installation

### **AVAILABLE OPTIONS**

Different soundproofing levels for canopied gensets

Solutions for arctic or hot environment

A wide selection of genset controllers and synch panels

Additional alarms (warning / shutdown)

Extended fuel tank capacity

Automatic refuelling kit

Automatic transfer switch panel (ATS)

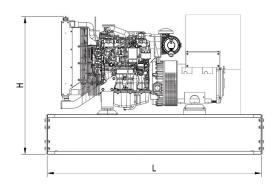

Residential Silencer (for open set only)

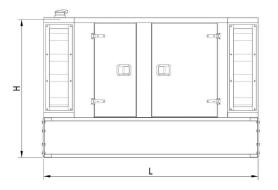

Leak proof tray

Special tools

### **DIMENSIONS AND WEIGHTS**

Open set on skid base	LxWxH: mm 2150x1270x1270	Dry: kg 645
Soundproofed canopy Silent version	LxWxH: mm 2150x1270x1400	Dry: kg 945
